

February 25, 2021

U.S. House of Representatives
Washington, D.C. 20515

U.S. Senate
Washington, D.C. 20510

Dear Members of Congress:

As elected leaders representing communities across our nation, we are writing to urge you to take immediate action on comprehensive coronavirus relief legislation, including desperately needed funding for states, counties, cities, and schools, and an increase in states' federal medical assistance percentage (FMAP). President Biden's ambitious \$1.9 trillion *American Rescue Plan* will go a long way towards alleviating the significant financial strain COVID-19 has placed on our states, counties, cities, and schools, and the pocketbooks of working families.

Working people have been on the frontlines of this pandemic for nearly a year and have continued to do their jobs during this difficult time. Dedicated public servants are still leaving their homes to ensure Americans continue to receive the essential services they rely upon: teachers and education workers are doing their best to provide quality education and keep their students safe, janitors are still keeping parks and public buildings clean, while healthcare providers are continuing to care for the sick. Meanwhile, it has been ten months since Congress passed the CARES Act Coronavirus Relief Fund to support these frontline workers and the essential services they provide. Without significant economic assistance from the federal government, many of these currently-middle class working families are at risk of falling into poverty through no fault of their own. It is a painful irony that while many have rightly called these essential workers heroes, our country has failed to truly respect them with a promise to protect them and pay them throughout the crisis.

Our states, counties, cities, and schools are also in desperate need of additional funding. Due to the chaotic federal response of the previous administration, state and local governments have been left to shoulder the burden of responding to the pandemic using their finite resources to fight COVID-19 while helping their residents stay safe, healthy, and financially stable. Already 1.4 million frontline public service workers have been furloughed and laid off and more layoffs are expected. Black women, who account for the highest share of workers in the public sector, have been especially hard hit. In communities nationwide, this means reduced mental health and addiction services, lower emergency response times, higher patient loads for nurses, fewer answered cries for help from domestic violence victims, dirtier streets, overcrowded prisons, and decaying roads and bridges. There have also been cuts to schools, health care, and other core public functions needed to meet the logistical challenges of distributing the COVID-19 vaccine and crush this virus once and for all.

We need immediate action by the federal government to ensure the health, safety, and financial security of working people across our country and to breathe life back into an underperforming economy, which bled 140,000 jobs in December. The Economic Policy Institute (EPI) and others have argued persuasively that insufficient support for state and local services after the 2007 Great Recession slowed the recovery to full employment. We cannot repeat this same mistake. To beat this virus and ensure an inclusive recovery, we the undersigned call upon you to invest in our states, counties, cities, and schools without delay.

Sincerely,

Tony Evers, Governor, State of Wisconsin

Joshua F. Tenorio, Lieutenant Governor, Territory of Guam
Denny Heck, Lieutenant Governor, State of Washington
Bethany Hall-Long, Lieutenant Governor, State of Delaware
Mandela Barnes, Lieutenant Governor, State of Wisconsin
John Fetterman, Lieutenant Governor, Commonwealth of Pennsylvania
Kate Marshall, Lieutenant Governor, State of Nevada
