

# JOIN AFSCME'S PROTECT MEDICAID DAY OF ACTION

AFSCME members won't sit on the sidelines as Congress pushes through devastating cuts to Medicaid. We won't be silent as anti-worker lawmakers target care for people with disabilities, children, senior citizens and workers to pay for tax breaks for profitable corporations and billionaires.

## TAKE ACTION WITH AFSCME MEMBERS ACROSS THE COUNTRY.

On Wednesday, March 19, we're driving as many calls as possible to tell Congress protect Medicaid, NOT tax cuts for billionaires.

# CALL 1-202-684-2466

These reckless cuts will harm working families and retirees, damage our communities, and threaten our jobs and strong contracts. That's why AFSCME members are making our voices heard. Medicaid dollars help keep the doors open at hospitals, clinics, nursing homes, state veterans' homes, substance use disorder treatment centers, and other health care providers. Rural communities especially rely on Medicaid to provide important health care services for those most vulnerable, and it sustains local jobs.

In fact, Medicaid dollars are the largest source of federal funding for state budgets, accounting for 56% of total federal funding allocated to states in 2024. **If federal Medicaid dollars dry up, states will have no choice but to slash budgets and jobs for a broad range of state and local public services.** Any cut to federal Medicaid dollars is a direct attack on the health and security of the American people and the budgets that fund the vital services AFSCME members provide.

There is also a bill on the table right now to STOP Congress from cutting D.C.'s budget by \$1 billion. This is money that comes directly from D.C. taxpayers and funds the essential services that AFSCME District Council 20 members provide.

**Join your fellow AFSCME members.  
Help us to protect Medicaid and D.C.'s budget from harmful cuts.**
