Does this look like shared sacrifice to you?

While the Gang of 6 “compromise” means lower tax rates for the wealthy and tax breaks for corporations who move jobs overseas, here’s what it does to working families:

- **Reduces** Social Security benefits for seniors and people with disabilities;
- **Cuts** health care programs;
- **Chokes** job-creating public investments;
- **Hikes** taxes on workers’ health care benefits; and
- **Slashes** education for disadvantaged students.

This is no deal for working families.

It’s long past time for Washington to focus on jobs, not protecting corporations and the wealthy.
